December 2, 2011

In a sign of our times, manroland AG, announced that they are in insolvency proceedings under German law effective Friday, November 25, 2011. This is similar to Chapter 11 filing in our country and will allow them to restructure their company and adapt the size of their company to the size of the current market share that they serve.

manroland is a very good partner to the newspaper industry in the United States and Canada. They have supported us and our industry through difficult times in the downturn cycle that our industry has endured. Now is the time to show our support to manroland. We can show our support of manroland by completing necessary projects with them including parts and services orders.

While this proceeding is certainly unfortunate and unsettling to us and the employees of manroland, the objective is to reposition manroland as an even stronger partner for our industry. Please join me in supporting manroland by your actions – with your business.

Sincerely,

Mike Vivion
General Manager
